JAVIER SANTIAGO

I have multiple years of experience in the financial industry analyzing trends and patterns, managing products, and creating reports. I have been in customer facing roles and have knowledge of community banking operations. My favorite and strongest data analysis skills are with Python, SQL and Tableau.

EDUCATION

- **UNIVERSITY OF CENTRAL FLORIDA**
  Certification Data Analytics and Visualization / 2021

- **UNIVERSITY OF PUERTO RICO - RIO PIEDRAS CAMPUS**
  B.A. in Psychology / 2010

WORK EXPERIENCE

- **INFOSYS LTD**
  Business Analyst / 2022-Present
  Working with Infosys provided me with business analysis transformation and data analytics experience. I worked on functional and technical requirements for digital transformation projects utilizing a variety of Agile Methodologies.
  I also performed data cleaning and statistical analysis using Python and R, established new databases and cleaned existing ones using SQL Server, and presented information to stakeholders and decision makers utilizing Power BI and PowerPoint.

- **WELLS FARGO**
  Branch Banking and Loan Officer / 2017-2021
  Leveraged daily branch operations with customer needs, product sales and State and Federal regulations. With specialty in Small Business and Affluent Customers, analyzed customer needs with the bank products portfolio and provided recommendations in partnership with several Investment and Merchant associates.

SOFTWARE & LIBRARIES PROFICIENCY

- **Python**
  PyCharm, Visual Studio Code, Jupyter Notebook, PySpark, Sklearn, Plotly, Tensorflow, Keras, NumPy, Pandas, Matplotlib, Beautiful Soup, and others.
- **SQL**
  SQL Server, pgAdmin, PostgreSQL , mySQL, MongoDB
- **JavaScript**
  CSS, Leaflet, Plotly, D3, Bootstrap
